Foreword

The *Catalogue of Holdings* is the first in a series of planned publications prepared to inform researchers of the machine readable data files available for primary and secondary research. This publication describes the machine readable data files available to researchers as of 30 January 1979. Periodic updates to the *Catalogue of Holdings* will be prepared and will include additional file descriptions as well as any changes to those files previously listed.

Katharine Gavrel prepared the *Catalogue of Holdings* with the help of the archivists. Laura O'Neill assisted with the preparation of the indexes.

Introduction

Background

The Machine Readable Archives (MRA) is a Division of the Archives Branch of the Public Archives of Canada. The Division is responsible for the collection, preservation and servicing of machine readable (computer) records of historical value produced by the federal government and those of national significance created in the private sector. The focus of the MRA acquisition program since the Division's establishment in 1973 has been the records created in the public sector. In 1976 the Records Management Branch undertook an inventory of machine readable records in the federal government. Since then the MRA staff, in conjunction with Records Management Branch personnel, have developed and implemented a records scheduling program for machine readable records. The scheduling program will ensure the preservation of historically valuable records produced by federal government departments and agencies.

The MRA has collected machine readable records from federal departments and agencies, royal commissions and inquiries, as well as the private sector. The wide variety of data collected in these areas is reflected in the *Catalogue of Holdings*. The computer is used to process all types of information and the records produced by the federal government are therefore as varied as the departments themselves. Many of the files described in the publication are surveys and time series. As the scheduling program is fully implemented the types of records acquired by the Division will be more varied.

The MRA's holdings contain data on many subjects: crime, immigration, agriculture, economics, language use and training, recreation, drug use and environmental conditions. Some of the economic data dates back to the 1940's. The earliest survey data were collected in the 1960's for the Royal Commission on Bilingualism and Biculturalism.

Restrictions on Access

Restrictions on access to the machine readable data files described in the *Catalogue* are included in each entry. Several types of restrictions have been placed on access to the machine readable files by the transferring department, agency or donor. The types of restrictions are listed below:

1. Restrictions: None

Available to all researchers.

2. Restrictions: Permission of the originator

Only the originator can give permission to release the machine readable file. Anyone interested in such a file should contact the Documentation and Public

Service Section, MRA, for information. The MRA will contact the department, agency or donor.

3. Restrictions: Restricted until (specified date)

These access restrictions have been negotiated with the transferring department, agency or principal investigators and apply as stated.

Services

The Machine Readable Archives provides the following services for researchers:

1. a copy of the machine readable data file and its supporting documentation;
2. an extract of a machine readable data file;
3. limited statistical analysis upon special request.

The charges for these services are based on machine time and the cost of the tapes used. Any of the files described in the *Catalogue* that are available to researchers can be ordered by indicating the MRA control number and the title of the machine readable data file. Further information and requests for copies can be obtained by writing to:

Machine Readable Archives
Documentation and Public Service Section
395 Wellington Street
Ottawa, Ontario
K1A 0N3
(819) 997-3080

Organization of the *Catalogue of Holdings*

The *Catalogue of Holdings* is divided into four sections:

1. Descriptive Entries;
2. Title Index;
3. Principal Investigator/Organization Index;
4. Subject Index.

Descriptive Entries

The following is an example of a descriptive entry for a machine readable data file.

G00-00002* Structure and Membership of the Canadian Cabinet

Alternate Title:	If applicable
Principal Investigator:	Van Loon, Richard
Organization:	Royal Commission on Bilingualism and Biculturalism
Geographic Universe:	Canada
Population Characteristics:	Cabinet Ministers

Case Unit:	Individuals	Animal prices by grade in selected Ontario cattle markets, 1975	G00-00111
Sample Size:	340		G00-00064
Time Span:	From 1867 through 1965		
Restrictions:	None		

Summary: For this file, data were collected for 340 Canadian Cabinet Ministers from secondary sources such as biographical dictionaries and parliamentary guides. Variables include party, period, mother tongue, education, occupation, and political and regional background.

Index Terms: Cabinet Ministers Bilingualism Biculturalism Occupational background Members of Parliament

Definition of terms

G00-00002:

This is the MRA control number for the machine readable data file. The files are described sequentially.

*

Documentation is in English and French.

Title:

The full title of the machine readable data file.

Alternate Title:

Any other title by which the machine readable file is commonly known.

Principal Investigator:

The name of the person responsible for the intellectual content of the file.

Organization:

The name of the department, agency or organization responsible for the intellectual content (if no principal investigator has been specified) of the file or which sponsored the file.

Geographic Universe:

The geographic area covered by the machine readable data file.

Population Characteristics:

The characteristics of the population surveyed.

Case Unit:

The unit of observation.

Sample Size:

The size of the sample used is indicated.

Time Span:

The date(s) in which the data were collected.

Restrictions:

The restrictions on access to the data.

Summary:

A brief summary of the main variables contained in the machine readable data file.

Index Terms:

The access points to the machine readable data file.

Title Index

All machine readable data files described in the *Catalogue* are listed alphabetically by title in this index. The corresponding control number is indicated to the right of the title.

Example:

Analysis of Toronto tracking experiment data G00-00117
to G00-00119

Principal Investigator/Organization Index

All the principal investigators and organizations that are responsible for the intellectual content of the machine readable data files are listed alphabetically in this index. The machine readable data file can be searched by the name of the principal investigator(s) and for the organization.

Example:

Health and Welfare Canada

Day care survey, 1974	G00-00067
Homemaker services survey, 1974	G00-00068

Van Loon, Richard

Structure and membership of the Canadian Cabinet	G00-00002
--	-----------

or

Royal Commission on Bilingualism and Biculturalism

Structure and membership of the Canadian Cabinet	G00-00002
--	-----------

Subject Index

All the machine readable data files described in the *Catalogue of Holdings* are indexed by main subject content and can be searched by using the index terms in the subject index. The sources used to create the subject index are:

1. Organization of Economic Co-operation and Development (OECD). *Macrothesaurus* (Paris: OECD, 1972);
2. UNESCO. *Thesaurus* (Paris: UNESCO, 1977);
3. Secretary of State. *Statistics Canada Terminology* (Ottawa: Minister of Supply and Services Canada, 1979).

Some of the broader index terms found in these sources had to be modified to reflect the Canadian content of the holdings.

Example:

Academic Achievement

Recruiting in the federal public service: other classes	G00-00012
--	-----------

Recruiting in the federal public service: physical, biological sciences and engineering	G00-00014
--	-----------

Acadia

Highschool students in New Brunswick: attitudes towards and knowledge of French	G00-00063
--	-----------

Advertising

Retail cut prices — beef cuts by store/city	G00-00106
---	-----------

Aged

Services for the aged/physically handicapped, 1974	G00-00069
---	-----------

Post funding of New Horizons projects	G00-00354
---------------------------------------	-----------

Participation survey (New Horizons program)	G00-00355
---	-----------

Senior citizen's activity pattern	G00-00356
-----------------------------------	-----------

Descriptive Entries

G00-00001* Young People's Images of Canada

Principal Investigator:	Johnstone, John W.C.
Organization:	Royal Commission on Bilingualism and Biculturalism
Geographic Universe:	Canada
Population Characteristics:	Anglophone and Francophone Canadians 13 to 20 years of age
Case Unit:	Individuals
Sample Size:	1,365
Time Span:	From May 1965 to July 1965
Restrictions:	None

Summary: This file contains data originating from a survey of Canadian youth, ages 13 to 20, and how they perceive their homeland. It includes their views on the nature of their country, its people and its problems, and on their expectations about being in Canada. Demographic and socio-economic variables are included.

Index Terms: Youth Bilingualism Interethnic relations Ethnic groups Cultural factor Political attitudes Social attitudes Flag Language

G00-00002* Structure and Membership of the Canadian Cabinet

Principal Investigator:	Van Loon, Richard
Organization:	Royal Commission on Bilingualism and Biculturalism
Geographic Universe:	Canada
Population Characteristics:	Cabinet Ministers
Case Unit:	Individuals
Sample Size:	340
Time Span:	From 1867 through 1965
Restrictions:	None

Summary: For this file, data were collected for 340 Canadian Cabinet Ministers from secondary sources such as bibliographical dictionaries and parliamentary guides. Variables include party, period, mother tongue, education, occupation, and political and regional background.

Index Terms: Cabinet Ministers Bilingualism Biculturalism Occupational background Members of Parliament

G00-00003* Bilingualism and Biculturalism in the House of Commons

Principal Investigators:	Hoffman, J.D. Ward, N.
Organization:	Royal Commission on Bilingualism and Biculturalism
Geographic Universe:	Canada
Population Characteristics:	Members of Parliament in 1965

Case Unit:	Individuals
Sample Size:	141
Time Span:	From 8 March 1965 through 3 September 1965
Restrictions:	None
Summary:	This file contains data on the history and state of bilingualism in the House of Commons, the perception of English and French speaking Members of Parliament, and the use of the official languages vis-à-vis their parliamentary roles. Among the topics covered are Members' communication with their constituents, attitudes toward one another, life in Ottawa, and understanding of the specific roles of each language group.

Index Terms: Bilingualism Biculturalism Political attitudes Members of Parliament Language House of Commons Federal Government

G00-00005* Voluntary Associations

Principal Investigators:	Sherwood, D. Wakefield, A.
Organization:	Royal Commission on Bilingualism and Biculturalism
Geographic Universe:	Canada
Population Characteristics:	German, Ukrainian, Italian and Dutch voluntary ethnic associations
Case Unit:	Organizations
Sample Size:	German 67; Ukrainian 225; Italian 129; Dutch 66. Total 487
Time Span:	1967
Restrictions:	None

Summary: This file contains data collected for a study which analysed the membership, organization and activities of non-English and non-French ethnic associations in relation to their own ethnic communities and Canadian society. The views of the association on bilingualism and biculturalism were examined relative to ethnicity, type of membership, pattern of organization and nature of activities.

Index Terms: Ethnic groups Bilingualism Biculturalism Ethnicity Voluntary associations

G00-00006* Use of the French and English Languages in Manitoba

Principal Investigator:	Jolicoeur, G. (Rev.)
Organization:	Royal Commission on Bilingualism and Biculturalism
Geographic Universe:	Manitoba
Population Characteristics:	Francophones (members of families with children between the ages of 5 and 30)
Case Unit:	Individuals

Descriptive Entries

continued

Sample Size:	2,466
Time Span:	From 15 June 1965 through 23 August 1965
Restrictions:	None

Summary: This file contains data collected for a study which investigated the language use of francophones in Manitoba, particularly the interest in French as the language of educational instruction, and the frequency and ease of use of French in day to day activities. Demographic variables that relate to social and economic status are included.

Index Terms: Manitoba Language French language Language of instruction

G00-00007* Use of the French Language in New Brunswick

Principal Investigator:	De La Garde, R.
Organization:	Royal Commission on Bilingualism and Biculturalism
Geographic Universe:	Moncton, Edmundston, Bathurst (New Brunswick)
Population Characteristics:	Francophones
Case Unit:	Individuals
Sample Size:	1,886
Time Span:	1965
Restrictions:	None

Summary: This file contains data collected for a study which examined the use of the French language in selected areas in New Brunswick (Moncton, Edmundston and Bathurst regions). Data relate to the extent of use and ability in French, as well as factors that favour or hamper French language use. Demographic and socio-economic data are included.

Index Terms: New Brunswick Language French language

G00-00008* Italians of Edmonton

Principal Investigator:	Hobart, Charles
Organization:	Royal Commission on Bilingualism and Biculturalism
Geographic Universe:	Edmonton, Alberta
Population Characteristics:	Italian immigrants
Case Unit:	Individuals
Sample Size:	418
Time Span:	1965
Restrictions:	None

Summary: This file contains data collected for a study which surveyed the Italian community of Edmonton. The variables include residential and extended family history, educational and occupational background of the respondents, as well as their aspirations for their children's future, the respondents' religious and political participation, exposure to the mass media, and the

respondents' attitudes and reactions to social problems and pressures of today's society.

Index Terms: Edmonton Italians Immigrants Occupational background Religious participation Political participation Mass media Social attitudes Aspirations

G00-00009* French Canadian and English Canadian Engineers in Montreal

Principal Investigator:	Dofny, Jacques
Organization:	Royal Commission on Bilingualism and Biculturalism
Geographic Universe:	Montreal, Quebec
Population Characteristics:	Engineers
Case Unit:	Individuals
Sample Size:	589
Time Span:	1966
Restrictions:	None

Summary: This file contains data relating to interviews with French and English engineers in Montreal. The variables include attitudes toward career, social class, economic development, industrial organization and ethnic relations. Background variables such as ethnic origin, education and family life are also included.

Index Terms: Montreal Engineers Social class Careers Interethnic relations

G00-00010* Italians of Montreal: Immigrant Adjustment in a Plural Society

Principal Investigator:	Boissevain, Jeremy
Organization:	Royal Commission on Bilingualism and Biculturalism
Geographic Universe:	Montreal
Population Characteristics:	Members of the Italian community
Case Unit:	Individuals
Sample Size:	203
Time Span:	From May 1965 through June 1965
Restrictions:	None

Summary: This file contains data relating to the Italian community in Montreal, its internal structure and its relationship to the English and French communities in the city.

Index Terms: Montreal Italians Interethnic relations Ethnic groups Cultural integration Social assimilation Immigrants

G00-00011* Bilingual Positions

Principal Investigator:	Steiner, H.
Organization:	Royal Commission on Bilingualism and Biculturalism
Geographic Universe:	Canada
Population Characteristics:	Federal government departments and agencies
Case Unit:	Federal government departments and agencies
Sample Size:	40
Time Span:	January 1965
Restrictions:	None

Summary: This file contains information on all bilingual positions in 40 departments and agencies of the Government of Canada. Variables relative to size of departments and agencies and the number and nature of the bilingual positions are presented.

Index Terms: Bilingualism Civil Service Job descriptions Federal Government

G00-00012* Recruiting in the Federal Public Service: Other Classes

Principal Investigator:	Taylor, H.
Organization:	Royal Commission on Bilingualism and Biculturalism
Geographic Universe:	Canada
Population Characteristics:	Applicants to the federal Civil Service Commission who have a university background
Case Unit:	Individuals
Sample Size:	6,300
Time Span:	From 1963 to 1965
Restrictions:	None

Summary: This file contains data collected from competition files of the Civil Service Commission for applicants who competed for initial hire or job redistribution. Variables include the applicant's occupational experience, educational attainment and linguistic ability, and demographic and socio-economic data.

Index Terms: Civil Service Recruitment Occupational background Language Academic achievement Federal Government

G00-00013* Recruiting in the Federal Public Service: Master Classes

Principal Investigator:	Taylor, H.
Organization:	Royal Commission on Bilingualism and Biculturalism
Geographic Universe:	Canada
Population Characteristics:	Civil service competitions

Case Unit:	Job competitions
Sample Size:	395
Time Span:	From 1963 through 1965
Restrictions:	None
Summary:	This data file contains descriptions of all civil service competitions held in the federal government. The data were obtained from the federal civil service competition posters and pertain to the position's salary, necessary qualifications, geographic location and initiating department.
Index Terms:	Civil Service Recruitment Occupational qualifications Federal Government

G00-00014* Recruiting in the Federal Public Service: Physical, Biological Sciences and Engineering

Principal Investigator:	Longstaff, F.
Organization:	Royal Commission on Bilingualism and Biculturalism
Geographic Universe:	Canada
Population Characteristics:	All francophone applicants and one quarter of the non-francophone applicants for positions in the civil service in physical and biological sciences and engineering divisions
Case Unit:	Individuals
Sample Size:	953
Time Span:	From 1962 to 1965
Restrictions:	None

Summary: This file contains data collected from competition files of the Civil Service Commission for applicants for the physical and biological sciences and engineering divisions. Data on the candidates' occupational experience, educational attainment and linguistic ability were collected, as well as demographic and socio-economic data.

Index Terms: Civil Service Recruitment Occupational background Academic achievement Language Federal Government

G00-00015* Recruiting in the Federal Public Service: Junior Executive and Foreign Service Officers

Principal Investigator:	Jeannotte, A.
Organization:	Royal Commission on Bilingualism and Biculturalism
Geographic Universe:	Canada
Population Characteristics:	Applicants of the 1964-1965 university recruitment programs of the Civil Service Commission
Case Unit:	Individuals

Descriptive Entries

continued

Sample Size:	1,393
Time Span:	From 1964 through 1965
Restrictions:	None

Summary: This file contains data relating to interviews with applicants of the 1964-1965 university recruitment programs of the Civil Service Commission. All candidates who had chosen to be examined in French, half the English candidates and those who accepted employment were interviewed. Variables include the applicant's experience and reaction to the Junior Executive and Foreign Service Officers' program and major factors that contributed to career decisions. Background demographic variables are also included.

Index Terms: Civil Service Recruitment Foreign service Managers Occupational choice Federal Government

G00-00016* Translation in the Federal Public Service

Principal Investigator:	LaRivière, J.
Organization:	Royal Commission on Bilingualism and Biculturalism
Geographic Universe:	Canada
Population Characteristics:	Documents requiring translation
Case Unit:	Documents
Sample Size:	Undetermined
Time Span:	1965
Restrictions:	None

Summary: This file contains data describing the amount, type and frequency of translation in the Canadian federal public service. Variables include frequency of publications to be translated, the number of words, the number of copies, the language of origin, and delay in days, weeks and months.

Index Terms: Civil Service Language Translation Bilingualism

G00-00017* Federal Public Service Survey

Principal Investigators:	Johnstone, J. Klein, W. Ledoux, D.
Organization:	Royal Commission on Bilingualism and Biculturalism
Geographic Universe:	Canada
Population Characteristics:	Federal civil servants
Case Unit:	Individuals
Sample Size:	9,343
Time Span:	From 30 July 1965 through 3 September 1966
Restrictions:	None

Summary: This file relates to a survey of federal public service employees focusing on the relationship between language use and

its implications in the past and present occupations of the respondents. Variables include ethnic and educational background, language capacity and use, and length of time with the federal public service. Demographic variables are also included.

Index Terms: Bilingualism Civil Service Ethnicity Education Language Occupational background Language of work

G00-00018* Crown Corporation Survey

Principal Investigators:	Johnstone, J. Klein, W. Ledoux, D.
Organization:	Royal Commission on Bilingualism and Biculturalism
Geographic Universe:	Canada
Population Characteristics:	Federal government crown corporation employees
Case Unit:	Individuals
Sample Size:	7,951
Time Span:	From 30 July 1965 through 3 September 1966
Restrictions:	None

Summary: This file contains data collected for a study examining the relationship between language use and its implications in the past and present occupations of respondents of seven crown corporations. Demographic variables as well as questions that deal with language capacity and use are included.

Index Terms: Language Bilingualism Occupational background Crown corporations Language of work

G00-00025* Ethnic Participation and Language Use in the Public Service of New Brunswick

Principal Investigator:	Thorburn, H.G.
Organization:	Royal Commission on Bilingualism and Biculturalism
Geographic Universe:	New Brunswick
Population Characteristics:	Public service employees in New Brunswick
Case Unit:	Individuals
Sample Size:	4,626
Time Span:	1965
Restrictions:	None

Summary: This file contains data collected for a study examining ethnic participation and the use of the French and English languages in the public service of New Brunswick. The variables include structure of the service, participation, language use, translation, language training and cultural relations. Demographic and socio-economic data on each respondent are also included.

Index Terms: New Brunswick Civil Service Language Language of work Translation Bilingualism Language training Interethnic relations Ethnicity

G00-00026* Quebec Public Service Survey

Principal Investigator:	Lapointe, G.
Organization:	Royal Commission on Bilingualism and Biculturalism
Geographic Universe:	Quebec
Population Characteristics:	Public service employees in Quebec
Case Unit:	Individuals
Sample Size:	2,703
Time Span:	1965
Restrictions:	None

Summary: This file contains data collected for a study exploring the career patterns and attitudes of Quebec public servants as they relate to work, opportunities for promotion and mobility, and the uses of official languages. Variables include sex, religion, age, mother tongue, ethnic origin, educational background, working time with the Quebec civil service, opportunities for promotion and mobility, and language used most frequently when dealing with other civil servants.

Index Terms: Quebec Civil Service Bilingualism Language of work Occupational mobility Careers

G00-00028* Interethnic Relations in Canada

Principal Investigator:	Groupe de recherche sociale (GRS)
Organization:	Royal Commission on Bilingualism and Biculturalism
Geographic Universe:	Canada
Population Characteristics:	Canadian adults, English and French
Case Unit:	Individuals
Sample Size:	4,071
Time Span:	From 1 May 1965 through 30 June 1965
Restrictions:	None

Summary: This file contains data collected for a study which explored the attitudes of English and French Canadians towards bilingualism and biculturalism policies and towards each other as distinct ethnic and language groups. Demographic and socio-economic variables are included.

Index Terms: Interethnic relations Language Bilingualism Biculturalism Ethnic groups

G00-00027* Senior Civil Servants at Mid-Career

Principal Investigators:	Beattie, C. Désy, J. Longstaff, S.
Organization:	Royal Commission on Bilingualism and Biculturalism
Geographic Universe:	Ottawa/Hull
Population Characteristics:	Persons at mid-career in senior level federal government administrative positions, 25 to 45 years old, earning more than \$6,200 per year and having several years experience
Case Unit:	Individuals
Sample Size:	296
Time Span:	1965
Restrictions:	None

Summary: This file contains data collected for a study examining the career patterns, social background, and reaction to bilingualism and biculturalism among English and French speaking persons at mid-career in senior level federal administrative positions. Senior administrators in five representative government departments were chosen. Data include demographic and socio-economic variables as well as attitudinal variables relating to career decisions, present position, and the public service in general.

Index Terms: Ottawa/Hull Civil Service Managers Careers Occupational choice Bilingualism

G00-00029* How Well Do French Canadian Students Know English?

Principal Investigator:	Sirkis, Rubin
Organization:	Royal Commission on Bilingualism and Biculturalism
Geographic Universe:	Quebec, Ontario, New Brunswick
Population Characteristics:	French Canadian students in their first year at a post-secondary institution
Case Unit:	Individuals
Sample Size:	2,236
Time Span:	September 1965
Restrictions:	None

Summary: This file contains data collected for a study which examined the ability of French Canadian students to speak and read English. Variables include the individual's educational and family background and the extent of and situational use of the English language. Attitudinal variables regarding the importance of English are included. In addition, a test on "English as a Foreign Language", developed with the aid of the Educational Testing Service, Princeton University, was scored for each student.

Index Terms: Quebec Ontario New Brunswick University students Bilingualism Language

Descriptive Entries

G00-00030* French Canadian and English Canadian Journalists

Principal Investigator:	Chartrand-McKenzie, F.
Organization:	Royal Commission on Bilingualism and Biculturalism
Geographic Universe:	Canada
Population Characteristics:	French Canadian and English Canadian journalists
Case Unit:	Individuals
Sample Size:	228
Time Span:	1965
Restrictions:	None

Summary: This file contains data collected for a study examining the place of newspapers in Canada, journalists' conceptions of the function of the press and the role of journalists in Canada. Data relate to the journalists' perceptions of the Canadian situation with particular reference to the problems and opinions surrounding relations between English and French speaking persons. Demographic and socio-economic data are included.

Index Terms: Journalists Press Interethnic relations

G00-00031* Participation in Military Life in a Bilingual Perspective

Principal Investigator:	Coulombe, P.
Organization:	Royal Commission on Bilingualism and Biculturalism
Geographic Universe:	Canada
Population Characteristics:	Members of the Canadian Armed Forces
Case Unit:	Individuals
Sample Size:	8,686
Time Span:	April 1966
Restrictions:	None

Summary: This file contains data collected for a study which examined the attitudes of anglophone and francophone members of the Canadian Armed Forces as related to participation in military life. Variables cover the personal and work history of the respondents, the bilingual aspect of the armed forces, and the knowledge, interest and concerns of the respondents with regard to the other official language.

Index Terms: Bilingualism Language Military Armed forces Occupational background Interethnic relations

G00-00032 Ethnic Participation and Language Use in the Public Service of Ontario

Principal Investigator:	Bryan, Nancy
Organization:	Royal Commission on Bilingualism and Biculturalism

Geographic Universe:	Ontario
Population Characteristics:	Civil servants
Case Unit:	Individuals
Sample Size:	4,417
Time Span:	1965
Restrictions:	None

Summary: This file contains data originating from a study of three specific areas of the Ontario civil service: the area relating to personal characteristics such as sex, age and mother tongue of the respondent; the area relating to career development in the Ontario civil service; and the area concerning the use and usefulness of language other than English.

Index Terms: Ontario Language of work Language Occupational mobility Civil service Job satisfaction Careers Bilingualism

G00-00033* Pre-Trial Discovery — Prosecutors

Principal Investigators:	Roberts, Darrell W. Arbour, Louise Pomerant, David
Organization:	Law Reform Commission of Canada
Geographic Universe:	Canada
Population Characteristics:	Prosecutors
Case Unit:	Individuals
Sample Size:	201
Time Span:	1973
Restrictions:	None

Summary: This file pertains to a study undertaken to assess the informal aspects of discovery practices in criminal cases. 'Discovery' refers to all the formal and informal procedures or means available to all parties to facilitate pre-trial preparation of cases and to have access to evidence and information possessed by opponents.

Index Terms: Criminality Crime Criminal procedure Judicial investigation Crime detection

G00-00034* Pre-Trial Discovery — Defence

Principal Investigators:	Roberts, Darrell W. Arbour, Louise Pomerant, David
Organization:	Law Reform Commission of Canada
Geographic Universe:	Canada
Population Characteristics:	Defence counsel
Case Unit:	Individuals
Sample Size:	805
Time Span:	1975
Restrictions:	None

continued

Summary: This data file pertains to a study undertaken to assess the informal aspects of discovery practices in criminal cases. 'Discovery' refers to all the formal and informal procedures or means available to all parties to facilitate pre-trial preparation of cases and to have access to evidence and information possessed by opponents.

Index Terms: Criminality Crime Criminal procedure Judicial investigation Crime detection

G00-00036 Attitudes and Behaviours Regarding the Non-Medical Use of Drugs: A Survey of Canadian Adults

Principal Investigators: Ledain, Gerald
Lanphier, Michael C.
Phillips, Sondra B.

Organization: Commission of Inquiry into the Non-Medical Use of Drugs

Geographic Universe: Canada

Population Characteristics: Persons over 19 years of age in households

Case Unit: Individuals

Sample Size: 2,748

Time Span: December 1969 to February 1970

Restrictions: None

Summary: Subjects were interviewed concerning their attitudes, opinions, knowledge and behaviour in relation to drugs and drug use. Data were collected by means of a questionnaire which contained over 500 variables and included use and related dimensions of alcohol, tobacco, solvents, cannabis derivatives, tranquilizers, sleeping pills, amphetamines, hallucinogens and narcotic derivatives. Other attributes covered by the questionnaire included such classes as demographic, socio-economic and family characteristics, educational data, organizational participation and interpersonal relations, recreation and hobbies, and non-drug, as well as drug-related attitudes.

Index Terms: Drug use Alcohol Narcotics Smoking Marijuana

G00-00037 Secondary School Students and Non-Medical Drug Use

Principal Investigators: Ledain, Gerald
Lanphier, Michael C.
Phillips, Sondra B.

Organization: Commission of Inquiry into the Non-Medical Use of Drugs

Geographic Universe: Canada

Population Characteristics: Students enrolled in grades 7 through 13 of secondary school

Case Unit: Individuals

Sample Size: 1,206

Time Span: December 1969 to February 1970

Restrictions: None

Summary: The sample of high school students for this survey was obtained concurrently with the adult sample, rather than through a sample of schools. All secondary school students in every household were given a questionnaire to complete and return to the interviewer. The questionnaire for this survey was similar to the adult questionnaire in that it contained over 500 variables which covered the students' opinions, attitudes, beliefs and knowledge of drugs and drug use and related dimensions. For each of the eight classes of drugs mentioned in the adult survey, data were collected on the extent and frequency of use, characteristics associated with use, temporal and geographic spread of use, introduction to drug use and continuation of use, resistance to use and discontinuation of use, and attitudes towards drugs and drug laws.

Index Terms: Drug use Alcohol Narcotics Secondary school students Smoking Marijuana

G00-00038 University Students and Non-Medical Drug Use

Principal Investigators: Ledain, Gerald
Lanphier, Michael C.
Phillips, Sondra B.

Organization: Commission of Inquiry into the Non-Medical Use of Drugs

Geographic Universe: Canada

Population Characteristics: Full-time students enrolled in degree granting institutions

Case Unit: Individuals

Sample Size: 1,213

Time Span: December 1969 to February 1970

Restrictions: None

Summary: The sample for this survey was selected from the listings of full-time students using prescribed sampling ratios and random starts. Each selected student was sent a questionnaire and letter explaining the study and assuring anonymity. The questionnaire contained approximately 400 variables dealing with all aspects of drug use and related dimensions. It also contained questions regarding the demographic, socio-economic and family characteristics of each respondent as well as many other attributes. Drug use questions concerned the use of alcohol, tobacco, cannabis derivatives, tranquilizers, sleeping pills, amphetamines, hallucinogens, narcotic derivatives and volatile substances.

Index Terms: Drug use Alcohol Narcotics University students Smoking Marijuana

G00-00049 Canadian National Election Study, 1974

Principal Investigators: Clarke, Harold
Jenson, Jane
Leduc, Lawrence
Pammet, Jon H.

Descriptive Entries

continued

Geographic Universe:	Canada, excluding portions of the far North, the Territories and Labrador
Population Characteristics:	Eligible voters in the 1974 federal election
Case Unit:	Individuals
Sample Size:	2,562 (weighted to 2,445)
Time Span:	From July 1974 through 21 December 1974
Restrictions:	None

Summary: This file contains data from a survey conducted in the weeks following the federal election of 8 July 1974. The sample was weighted by province to allow for systematic over-sampling of smaller provinces. The variables included in the file are: interest in elections and politics in general; economic well-being and life satisfaction; political efficacy; political participation; regional attitudes; general election issues; bilingualism; foreign investment; inflation; separatism; majority government; party identification; campaign and information sources; federal voting behaviour; occupational mobility; attitudes toward Parliament; and federal and provincial party images. Demographic data are also included.

Index Terms: Federal elections Political leadership Political party preference Voting behaviour Political participation Political attitudes Social attitudes Political interest Life satisfaction Bilingualism Foreign Investment Inflation Separatism Electoral campaigning

G00-00050 Rates of Pay — Administrative and Foreign Service Categories

Organization:	Pay Research Bureau/Public Service Staff Relations Board
Geographic Universe:	Canada
Population Characteristics:	Administrative and Foreign Service categories
Case Unit:	Individuals
Sample Size:	Variable
Time Span:	1973 — ongoing
Restrictions:	Restricted for 10 years from the date of production

Summary: This file contains survey data undertaken to aid the Public Service Staff Relations Board in providing information on the pay rates, hours of work, education and field of work for use during contract negotiations. The file also contains variables on education, supervisory responsibilities, geographic location, collective agreements and the expiry dates of the agreements.

Index Terms: Collective bargaining Civil Service Wage rate Vocational training

G00-00052 Professional and Technical Survey

Organization:	Pay Research Bureau/Public Service Staff Relations Board
----------------------	--

Geographic Universe:	Canada
Population Characteristics:	Public and private organizations
Case Unit:	Occupational groups
Sample Size:	Variable
Time Span:	1973 — ongoing
Restrictions:	Restricted for 10 years from date of production

Summary: This file contains data originating from an annual survey of pay rates and working conditions of private and public sector incumbents whose positions reflect occupation, class and grades in the scientific/ professional and technical category of the federal public service.

Index Terms: Wage rate Working conditions Professional occupations Technical occupations Scientific occupations Private sector

G00-00054 Hospital Survey — Psychologists, Dentists, Home Economists

Organization:	Pay Research Bureau/Public Service Staff Relations Board
Geographic Universe:	Canada
Population Characteristics:	Psychologists, dentists, home economists
Case Unit:	Hospitals
Sample Size:	Variable
Time Span:	July 1974 — ongoing
Restrictions:	Restricted for 10 years from date of production

Summary: This file contains data originating from a survey undertaken every two years to provide pay rate data and working conditions for hospital employees. Data are used to review rates of pay of employees who perform similar duties within the federal public service.

Index Terms: Wage rate Working conditions Health professionals Medical occupation

G00-00055 Hospital Survey — Nurses, Social Workers and Other Hospital Classes

Organization:	Pay Research Bureau/Public Service Staff Relations Board
Geographic Universe:	Canada
Population Characteristics:	Nurses, social workers and other hospital employees
Case Unit:	Hospitals
Sample Size:	Variable
Time Span:	1974 — ongoing
Restrictions:	Restricted for 10 years from date of production

continued

Summary: This file contains data originating from a survey undertaken every two years to provide pay rate data and working conditions for hospital employees. Data are used to review rates of pay of employees who perform similar duties within the federal public service.

Index Terms: Wage rate Working conditions Hospital workers Health professionals

G00-00056 Autocods

Organization:	Pay Research Bureau/Public Service Staff Relations Board
Geographic Universe:	Canada
Population Characteristics:	Private and public organizations
Case Unit:	Organization and occupational groups
Sample Size:	123 organizations
Time Span:	1973 — ongoing
Restrictions:	Restricted for 10 years from date of production

Summary: This file contains the results of a continuous survey in which data for a wide range of occupational groups is updated twice a year. Organizations which participate in Autocods are required to submit any data pertaining to changes in rates of pay or working conditions. Major variables include geographic codes, hours of work, salary rate code, number of employees, education and collective agreements.

Index Terms: Wage rate Working conditions Civil Service Collective bargaining Labour agreement

G00-00061 Federal Election Study, 1968

Principal Investigator:	Meisel, John
Geographic Universe:	Canada
Population Characteristics:	Individuals living in city cores, suburbs, rural areas and on farms
Case Unit:	Individuals
Sample Size:	2,767
Time Span:	1968
Restrictions:	None

Summary: This file contains data pertaining to respondents' reactions to the June 1968 election, their evaluation of parties and candidates, and their views regarding regional conflicts in Canada, medicare, welfare and relative importance of different levels of government. Demographic information and political party preference are also included.

Index Terms: Federal elections Political parties Political leadership Social security Political party preference Voting behaviour

G00-00062 Federal Election Study, 1965

Principal Investigator:	Meisel, John
Geographic Universe:	Canada
Population Characteristics:	National population of listed voters
Case Unit:	Individuals
Sample Size:	2,118
Time Span:	January 1966 to March 1966
Restrictions:	None

Summary: This file contains data from an investigation which was concerned with the respondents' political attitudes toward the problems confronting Canada, campaign issues, their political efficacy and trust in government. Respondents were questioned about their perception of the federal and provincial governments, perceived regional and provincial differences, semantic differential rating of parties, perception of party leaders, current party preference and past voting behaviour, parents' party preference, political interest and information, contact with campaign activities of parties as well as past and present financial status. Demographic data are also included.

Index Terms: Federal elections Political parties Political leadership Political attitudes Voting behaviour Political interest Political party preference Electoral campaigning Political efficacy

G00-00063 Highschool Students in New Brunswick: Attitudes Towards and Knowledge of French

Principal Investigator:	Williams, Colin
Geographic Universe:	New Brunswick
Population Characteristics:	Grade 12 highschool students
Case Unit:	Individuals
Sample Size:	1,442
Time Span:	January 1974
Restrictions:	None

Summary: This file pertains to a survey of grade 12 highschool students which examined their attitudes towards the teaching and utilization of the French language in their province and their conceptions of Acadian society and the possible political alternatives open to the Acadian people.

Index Terms: Acadia Secondary school students French language Language of instruction Student attitudes New Brunswick

G00-00064 Archival Profession Questionnaire

Principal Investigator:	Committee of the Future
Organization:	Archives Section of the Canadian Historical Association

Descriptive Entries

continued

Geographic Universe:	Canada
Population Characteristics:	Persons engaged in archival work
Case Unit:	Individuals
Sample Size:	248
Time Span:	From May 1974 to August 1974
Restrictions:	Permission of originator

Summary: This file contains data collected from a survey of persons engaged in and supporting archival work in Canada to determine the form of archival association preferred by the majority. The data were also collected to obtain a professional profile for future planning.

Index Terms: Archive personnel Archive profession Professional associations

G00-00065 Inuit Land Use Project

Principal Investigator:	Freeman, Milton R.
Organization:	McMaster University/ Department of Sociology
Geographic Universe:	Northwest Territories
Population Characteristics:	Inuit settlements
Case Unit:	Individuals
Sample Size:	1,600
Time Span:	Varies with settlement
Restrictions:	Permission of Director, Territorial and Social Development Branch, Indian and Northern Affairs

Summary: This file contains data collected for a study to record Inuit relationships in terms of history and contemporary man, land and water, and communication between the Inuits and the south. Major variables included in this file are settlement, locale, land use activities (trapping, fishing, gathering) and time period.

Index Terms: Northwest Territories Inuits Land utilization

G00-00066 Farmers' Attitudes to Farm Machinery Purchases

Principal Investigator:	Segal, Alexander
Organization:	Royal Commission on Farm Machinery
Geographic Universe:	Prairies
Population Characteristics:	Family districts
Case Unit:	Individual farmers
Sample Size:	85
Time Span:	1967
Restrictions:	None

Summary: This file pertains to a survey of farmers' attitudes and behaviour to the purchase of farm machinery. Included with the general background variables are variables concerning decision making with regard to farm management, the use of

sources of information on farm machinery, the amount of capital to be invested in farm machinery, factors influencing the purchase of equipment, and the financing of farm machinery.

Index Terms: Farmers Farm machinery Agricultural equipment Agricultural management Decision making Capital investment

G00-00067 Day Care Survey, 1974

Organization:	Health and Welfare Canada
Geographic Universe:	Canada, excluding Labrador, the Yukon and the Northwest Territories
Population Characteristics:	Adult civilian population, 18 years of age and older
Case Unit:	Individuals
Sample Size:	1,006
Time Span:	May 1974
Restrictions:	Permission of the originator

Summary: This file pertains to a survey undertaken to analyse opinions about and the use of day care services by adult Canadians. The file contains data on the preference, awareness and use of such centres as well as opinions on their advantages, disadvantages and availability.

Index Terms: Day care Social services

G00-00068 Homemaker Services Survey, 1974

Organization:	Health and Welfare Canada
Geographic Universe:	Canada, excluding Labrador, the Yukon and the Northwest Territories
Population Characteristics:	Adult civilian population, 18 years of age and older
Case Unit:	Individuals
Sample Size:	1,006
Time Span:	October 1974
Restrictions:	Permission of the originator

Summary: This file pertains to a survey undertaken to analyse opinions about and the use of homemaker services by adult Canadians. The survey was designed to obtain information on the demand for social services, how they should be financed and what should be the level of government support.

Index Terms: Social services

G00-00069 Services for the Aged/Physically Handicapped, 1974

Organization:	Health and Welfare Canada
Geographic Universe:	Canada, excluding Labrador, the Yukon and the Northwest Territories

continued

Population Characteristics: Adult civilian population, 18 years of age and over

Case Unit: Individuals

Sample Size: 1,056

Time Span: January 1974

Restrictions: Permission of the originator

Summary: This file pertains to a survey undertaken to analyse opinions about and the use of services for the aged/physically handicapped by adult Canadians. The survey was designed for the purpose of obtaining information on the overall demand for social services, how they should be financed and what should be the level of government support.

Index Terms: Social services Aged Care of the aged Handicapped

G00-00070 Family Counselling Services, 1974

Organization: Health and Welfare Canada

Geographic Universe: Canada, excluding Labrador, the Yukon and the Northwest Territories

Population Characteristics: Adult population, 18 years of age and older

Case Unit: Individuals

Sample Size: 1,071

Time Span: May 1974

Restrictions: Permission of the originator

Summary: This file contains the results of a small sociological study of a selected nation-wide population sample and their attitudes to family counselling services. Among the variables included in the survey are the existence and use of family counselling services, the advantages and disadvantages of such services, fees, and who should pay the largest part of the cost.

Index Terms: Counselling Social services Family

G00-00071 Inventory of Socio-Cultural Facilities, 1974

Organization: Health and Welfare Canada

Geographic Universe: Canada

Population Characteristics: Socio-cultural facilities

Case Unit: Buildings

Sample Size: Variable

Time Span: 1974

Restrictions: None

Summary: This file contains data collected to provide a global picture of socio-cultural facilities as well as to obtain a data base for use in planning and policy making. The data relate to major socio-cultural facilities which were open to the general public during the previous year. Major variables include site, location, type of facility (library, museum, studio and auditorium) and programs taking place in the facility.

Index Terms: Socio-cultural centres Recreational facilities

G00-00072 Election Results: 1972

Organization: Office of the Chief Electoral Officer

Geographic Universe: Canada

Population Characteristics: Polling stations and electoral candidates

Case Unit: Polling stations; individuals

Sample Size: Undetermined

Time Span: 30 October 1972

Restrictions: None

Summary: This data file contains the voting records for each polling station, electoral district and province for all candidates in the 1972 Canadian federal election. The file is arranged by province, constituency, candidate, polling division, constituency total and majority records. Information includes population, candidate name, address, occupation and party affiliation, polling division name, identification, ballots, unused ballots, winning candidate and runners up with difference in votes.

Index Terms: Election results Electoral candidates Occupations Political affiliation Federal elections

G00-00074 Canadian Dairy Commission: Producer Records, 1975

Organization: Canadian Dairy Commission

Geographic Universe: Canada

Population Characteristics: Milk producers

Case Unit: Individuals

Sample Size: 87,135

Time Span: 1975 — ongoing

Restrictions: Permission of the Chairman of the Commission

Summary: This is an administrative file which provides detailed data on milk producers, partners (if any), quotas, cumulated shipments, monthly shipments and pre-listed plants. Monthly runs compile data on the types of milk produced, shipped and paid for as well as keeping track of quotas, payments and geographic location.

Index Terms: Dairy products Dairy industry Agri-product processing

G00-00076 Canadian Travel Survey, 1971

Organization: Industry, Trade and Commerce/Canadian Government Office of Tourism

Geographic Universe: Canada

Population Characteristics: Canadians, 14 years of age and over, travelling in Canada on trips of 25 miles or more from home

Descriptive Entries

continued

Case Unit: Individuals

Sample Size: 120,245

Time Span: 1971

Restrictions: None

Summary: This file pertains to a survey undertaken to examine and report on travel patterns in Canada. Data relate to accommodation and food service, amusement and recreation services, transportation, personal and family income, expenditure, travel, recreation and leisure.

Index Terms: Travel Tourism Leisure Recreation services Transport

G00-00077 Morbidity Clinical Index

Principal Investigator: Lefebvre, J.Y.

Organization: Department of Veterans Affairs

Geographic Universe: Canada

Population Characteristics: Veterans

Case Unit: Individuals

Sample Size: Variable

Time Span: 1950 — ongoing

Restrictions: Permission of originator

Summary: This file contains records of the medical treatment of Canadian veterans. The records include administrative details, a general indication of the individual's service and age, and diagnosis.

Index Terms: Veterans Medical treatment

G00-00078 Recreational Facilities Study

Organization: Health and Welfare Canada

Geographic Universe: Canada

Population Characteristics: Major sports facilities

Case Unit: Sports facilities

Sample Size: Undetermined

Restrictions: None

Summary: This data file relates to major sports facilities which could have been used or had been used in the year previous to the study, located in localities and urban areas with a population above 1,000. Major variables include site, administration, ownership, area occupied, type and equipment in or on the facility.

Index Terms: Recreation services Sports

G00-00079 Immigration Data System Overseas

Organization: Manpower and Immigration

Geographic Universe: Outside Canada

Population Characteristics: Individuals applying to immigrate to Canada

Case Unit: Individuals

Restrictions: Permission of originator

Summary: This file contains information on individuals from overseas applying for immigration status to enter Canada. Major variables include type of applicant, country of last permanent residence, total number of persons, date of application, education, occupational skill, language, number of relatives in Canada and special programs.

Index Terms: Immigrants Immigration Occupational qualification

G00-00080 Immigration Data System Canada

Organization: Manpower and Immigration

Geographic Universe: Canada

Population Characteristics: Applicants for immigration status

Case Unit: Individuals

Time Span: 1972 — ongoing

Restrictions: Permission of originator

Summary: This file contains information on applicants for immigrant status. Major variables include sex, marital status, country of last permanent residence, number of persons, admission category, eligibility, date of interview, education, language and status.

Index Terms: Immigrant Immigration Education

G00-00081 Non-Immigrant Data System

Organization: Manpower and Immigration

Geographic Universe: Outside Canada

Population Characteristics: Non-immigrants coming to Canada

Case Unit: Individuals

Time Span: 1969 — ongoing

Restrictions: Permission of originator

Summary: This file contains information on non-immigrants coming to Canada. Major variables include sex, citizenship, marital status, country of last permanent residence, destination in Canada, entry date and category of the non-immigrant.

Index Terms: Non-immigrant

G00-00083 Indian Membership File

Organization: Indian and Northern Affairs/Indian and Inuit Affairs Program

Geographic Universe: Canada

Population Characteristics: Registered Indians

Case Unit: Individuals

continued

Sample Size:	Variable
Time Span:	1965 — ongoing
Restrictions:	Permission of the originator
Summary: This series of files contain demographic information on all registered Indians in Canada. Variables on vital statistics such as births and marriages are included.	
Index Terms: Indigenous population	

G00-00084 Indian Event File

Organization:	Indian and Northern Affairs/Indian and Inuit Affairs Program
Geographic Universe:	Canada
Population Characteristics:	Registered Indians
Case Unit:	Individuals
Sample Size:	Variable
Time Span:	1965 — ongoing
Restrictions:	Permission of originator
Summary: This series of files provide information on vital events which have occurred in the recent past. Only registered Indians for whom one vital event has been recorded are included.	
Index Terms: Indigenous population	

G00-00085/86 Survey of Retirement

Organization:	Health and Welfare Canada
Geographic Universe:	Canada, excluding Northwest Territories and the Yukon
Population Characteristics:	Non-institutional population over the age of 55
Case Unit:	Individuals
Sample Size:	1,590
Time Span:	February 1975
Restrictions:	None
Summary: These data were collected as a supplement to Statistics Canada's monthly Labour Force Survey to provide information on retirement in Canada including early retirement, adjustment to retirement, poverty, the social, economic and health related conditions necessary for a satisfying life in retirement, and expectations concerning retirement. Those who had ceased full-time work and did not intend to work in the near future completed a 'retirement' questionnaire. The remainder received a 'pre-retirement' questionnaire. The 170 variables in each file contain information on, for example, retirement timing, methods, reasons, preparation, preferences and opinions, work knowledge and relevance of government programs, time use and quality of life in retirement.	
Index Terms: Retirement Income Old age benefits Aging Gerontology	

G00-00087* Neighbourhood Perceptions in Montreal

Principal Investigator:	Sorécom Inc.
Organization:	Ministry of State for Urban Affairs
Geographic Universe:	Montreal
Population Characteristics:	Adults, 18 years of age and over
Case Unit:	Individuals
Sample Size:	1,611
Time Span:	From December 1973 to February 1974
Restrictions:	None
Summary: This file contains data collected from a survey of 18 neighbourhoods in Montreal. Topics covered by the study include: Montrealers' perceptions of the boundaries of their district; the knowledge of and attitudes toward their district, their neighbourhood, their parish and their city; and the leisure activities of the residents both inside and outside of their neighbourhoods.	

Index Terms: Montreal Urban environment Urban society Leisure activities Community identification Community participation Neighbourhood

G00-00088 Member Survey

Principal Investigator:	Peat, Marwick and Partners
Organization:	RCMP Commission of Inquiry
Geographic Universe:	Canada
Population Characteristics:	RCMP members — Constables and NCO's
Case Unit:	Individuals
Sample Size:	418
Time Span:	1975
Restrictions:	Restricted until 1986

Summary: This file contains data for the study undertaken to provide information on RCMP members' (constables and NCO's) attitudes toward various internal procedures. The file contains information about RCMP members' attitudes on complaint procedures, job attitudes, relationship with superiors as well as age, marital status, education, rank, years of service, duties and job location.

Index Terms: RCMP Work attitude Job satisfaction Police

G00-00089 Officer Survey

Principal Investigator:	Peat, Marwick and Partners
Organization:	RCMP Commission of Inquiry
Geographic Universe:	Canada
Population Characteristics:	RCMP officers
Case Unit:	Individuals

Descriptive Entries

continued

Sample Size:	338
Time Span:	1975
Restrictions:	Restricted until 1986
Summary: The file contains data to support the study undertaken to provide information on RCMP officers' attitudes towards various internal procedures. The file contains information about RCMP officer attitudes on complaint procedures, discipline, grievance procedures, job attitudes, relationship with supervisors, as well as age, marital status, education, rank, years of service, duties and job location.	
Index Terms: RCMP Work attitude Job satisfaction Police	

G00-00091 Rates of Pay — Municipal and Provincial Police Forces

Organization:	Pay Research Bureau/Public Service Staff Relations Board
Geographic Universe:	Canada
Population Characteristics:	Municipal and provincial police forces
Case Unit:	Police force and rank
Sample Size:	Variable
Time Span:	October 1975 — ongoing
Restrictions:	Restricted for 10 years from the date of production

Summary: This file contains data originating from an annual survey undertaken to provide pay rate data and working conditions for police officers outside the federal government in order to evaluate the rates of pay of employees who perform similar duties within the civil service.

Index Terms: Wage rate Working conditions Police

G00-00092 Weekly Food Prices Monitoring Program — 8 City Survey

Organization:	Food Prices Review Board
Geographic Universe:	8 Canadian cities: Vancouver, Edmonton, Winnipeg, Toronto, Ottawa, Montreal, Quebec, Halifax
Population Characteristics:	Supermarkets
Case Unit:	Item (product)
Time Span:	From January 1973 to December 1975
Restrictions:	Restricted until 1981

Summary: This file contains data from a national price survey conducted in eight major cities in Canada. The file contains data on the average retail prices for products, expressed in dollars and cents, and collected from supermarkets in the eight cities. The purpose of the project was to provide consistent, accurate and timely data on food prices in Canada.

Index Terms: Food Prices Review Board Food prices Retail price

G00-00093 Weekly Food Prices Monitoring Program — 6 City Survey

Organization:	Food Prices Review Board
Geographic Universe:	6 Canadian cities: St. John's, Charlottetown, St. John, Regina, Yellowknife, Moncton
Population Characteristics:	Supermarkets
Case Unit:	Item (product)
Time Span:	From January 1974 to December 1975
Restrictions:	Restricted until 1981

Summary: This file contains data collected by a weekly national price survey conducted in six Canadian cities: St. John's, Charlottetown, St. John, Regina, Yellowknife and Moncton. The purpose of the project was to provide consistent, accurate and timely data on the average retail prices for food products in Canada.

Index Terms: Food Prices Review Board Food prices Retail price

G00-00094 Weekly Food Prices Monitoring Program

Organization:	Food Prices Review Board
Geographic Universe:	Canadian cities: Vancouver, Edmonton, Winnipeg, Toronto, Ottawa, Montreal, Quebec, Halifax
Case Unit:	Food group
Time Span:	From January 1973 to December 1975
Restrictions:	Restricted until 1981

Summary: This file contains data on weekly price indices calculated from the data of the 8 City Survey. The purpose of calculating such numerical indices was to represent trends in food prices. The indices are listed by food group for each of the eight cities, in addition to composite indices for all eight cities combined.

Index Terms: Food Prices Review Board Food prices

G00-00095 Ottawa Survey

Organization:	Food Prices Review Board
Geographic Universe:	Ottawa/Hull
Population Characteristics:	Food stores
Case Unit:	Item (product)
Sample Size:	65
Time Span:	From 17 May 1974 to 29 November 1974 and from 21 January 1975 to 28 February 1975

continued

Restrictions: Restricted until 1981

Summary: This file contains data collected for an experimental study to determine how the availability of comparative price information affects consumers when they are making food purchasing decisions. The file consists of data on the weekly retail prices in dollars and cents for 65 food items in 26 stores in the Ottawa/Hull area.

Index Terms: Food Prices Review Board Food prices Ottawa/Hull Retail price Consumer behaviour

G00-00097 Meat Specials Study

Organization: Food Prices Review Board

Geographic Universe: Canadian cities: Vancouver, Calgary, Winnipeg, Toronto, Montreal

Population Characteristics: Food stores

Case Unit: Item

Sample Size: Variable

Time Span: From January 1975 to June 1975

Restrictions: Restricted until 1981

Summary: The purpose of this study was to examine the costs and benefits to consumers of "meat specials" merchandizing practice. This file contains data for 25 weekly entries for 38 categories. These categories include store sales in dollars and pounds and advertising space in square inches for the major meat categories. Financial data are provided for individual stores in five major Canadian cities.

Index Terms: Food Prices Review Board Publicity Meat Food prices

G00-00103 Mathematical Sciences in Canada

Principal Investigators: Beltzner, K.P.
Coleman, A.J.
Edwards, G.D.

Organization: Science Council of Canada

Geographic Universe: Canada

Population Characteristics: Graduates in Mathematics

Case Unit: Individuals

Sample Size: 3,231

Time Span: 1975

Restrictions: None

Summary: This file contains data collected for a survey of university graduates in mathematics. The survey was to provide information on the kinds of mathematics used in Canada, to what extent they are being used and to suggest areas of mathematics which are not being studied. Data were collected for three main areas: biographical and professional information, mathematics and present job, and reflections by the respondents on their mathematical education.

Index Terms: Mathematics Mathematics education Job satisfaction Job requirements

G00-00104 Citizen Participation in Non-Work Activities

Organization: Secretary of State/Citizenship Branch

Geographic Universe: Canada

Population Characteristics: Random sample of inhabitants of stratified sample of Canadian communities with LIP grants

Case Unit: Individuals

Sample Size: 8,688

Time Span: From April 1973 to June 1973

Restrictions: None

Summary: This file contains detailed data on the use of audio-visual media, participation in each of two main activities, interaction with friends and relatives, use of vacations, reasons for not participating in various types of activities, demands for new activities or increased involvement, including obstacles to meeting these demands. Demographic data are also included.

Index Terms: Leisure Social participation Holidays Recreation services Mass media Leisure activities

G00-00106 Retail Cut Prices — Beef Cuts by Store/City

Principal Investigators: Huff, H.B.
Mackenzie, Maxwell W.

Organization: Commission of Inquiry into the Marketing of Beef

Geographic Universe: Canada

Population Characteristics: Firm

Case Unit: Item

Sample Size: Variable

Time Span: From 1973 to 1975

Restrictions: Permission of originator

Summary: This file contains 984 series of weekly and monthly observations on the quantity and prices of beef (1973 to 1975). Main variables included in the series are retail prices of beef cuts, the quantity of carcasses graded, slaughter prices, United States prices, average weekly earnings and Montreal newspaper advertising.

Index Terms: Beef Retail price Advertising

G00-00107 Packer System File

Principal Investigator: Huff, H. Bruce

Organization: Commission of Inquiry into the Marketing of Beef

Geographic Universe: Canada

Population Characteristics: Packing firms in the beef marketing industry

Descriptive Entries

continued

Case Unit:	Firm
Sample Size:	86
Time Span:	1975
Restrictions:	Permission of originator; only aggregated data available

Summary: This file contains data collected from a survey of packing firms in the beef marketing industry. The data were used for research purposes by the Commission of Inquiry into the Marketing of Beef. Data were collected on the following topics: the purchase of live cattle for slaughter; beef shipments made from the plants; the volume, destruction and primary mode of transportation used for shipments of beef; imported beef; the purchase of beef through brokers; and the price setting mechanism.

Index Terms: Beef marketing Price Purchasing

G00-00108 Retailer System File

Principal Investigator:	Huff, H. Bruce
Organization:	Commission of Inquiry into the Marketing of Beef
Geographic Universe:	Canada
Population Characteristics:	Retail firms in the beef marketing industry
Case Unit:	Firm
Sample Size:	86
Time Span:	1975
Restrictions:	Permission of originator; only fully aggregated data available

Summary: This file contains data collected from a survey of retail firms in the beef marketing industry. The data were used for research purposes by the Commission of Inquiry into the Marketing of Beef. Information on the following topics is contained in the file: total sales and advertising allowances of stores; the beef received by retailers; the volume, source and mode of transportation used to deliver the beef; the type of suppliers and brokers; the prices of the purchased beef; the retail prices and yields; and the processing of carcasses.

Index Terms: Beef marketing Price Retail price

G00-00109 Wholesaler System File

Principal Investigator:	Huff, H. Bruce
Organization:	Commission of Inquiry into the Marketing of Beef
Geographic Universe:	Canada
Population Characteristics:	Wholesale firms in the beef marketing industry
Case Unit:	Firm
Sample Size:	86
Time Span:	1975
Restrictions:	Permission of originator; only aggregated data available

Summary: This file contains data collected from a survey of wholesale firms in the beef marketing industry. The data were used for research purposes by the Commission of Inquiry into the Marketing of Beef. Information on the following topics is contained in the file: a description of the beef received by wholesalers by volume and form; the mode of transportation; imported beef; a description of beef shipments made from the plant; the price setting mechanism; and the prices for beef shipped from the plant.

Index Terms: Beef marketing Wholesale trade Wholesale price

G00-00110 Weekly Price Data — Packer, Wholesaler, Retailer, 1975

Principal Investigator:	Huff, H. Bruce
Organization:	Commission of Inquiry into the Marketing of Beef
Geographic Universe:	Canada
Population Characteristics:	Packing, retail and wholesale firms in the beef marketing industry
Case Unit:	Beef cut
Time Span:	1975
Restrictions:	Permission of originator; only aggregated data available

Summary: This file contains data on the prices of beef cuts by the three types of firms: packers, retailers and wholesalers. The data were collected for a 22 week period and were used for research purposes by the Commission of Inquiry into the Marketing of Beef.

Index Terms: Beef marketing Price

G00-00111 Animal Prices by Grade in Selected Ontario Cattle Markets, 1975

Principal Investigator:	Huff, H. Bruce
Organization:	Commission of Inquiry into the Marketing of Beef
Geographic Universe:	Ontario
Population Characteristics:	Cattle markets
Case Unit:	Purchase lot
Time Span:	1975
Restrictions:	Permission of originator; only fully aggregated data available

Summary: This file contains data on the animal prices by grade in selected Ontario markets. The data were collected for the Commission of Inquiry into the Marketing of Beef to examine certain regional and seasonal market effects. The basic unit of information is the purchase lot which is composed of animals of a single sex.

Index Terms: Price Marketing

G00-00112 Election Results: 1974

Organization:	Office of the Chief Electoral Officer
Geographic Universe:	Canada
Population Characteristics:	Polling stations and electoral candidates
Case Unit:	Polling stations; individuals
Sample Size:	Undetermined
Time Span:	8 July 1974
Restrictions:	None

Summary: This file contains the voting records for each polling station, electoral district and province for all candidates in the 1974 Canadian federal election. The file is arranged by province, constituency, candidate, polling division, constituency total and majority records. Information includes population, candidate, name, address, occupation and party affiliation, polling division name, identification, ballots, unused ballots, winning candidate and runners up with difference in votes.

G00-00114 Effects of Marijuana and Alcohol on Some Automobile Driving Tasks

Principal Investigators:	Miller, Ralph D. Hansteen, Ralph W. Lonero, L.
Organization:	Commission of Inquiry into the Non-Medical Use of Drugs
Geographic Universe:	Ottawa
Population Characteristics:	Most university students over 21 years of age, without detectable pathology, experienced alcohol and cannabis users, but not heavy tobacco smokers
Case Unit:	Individuals
Sample Size:	16
Time Span:	1972
Restrictions:	None

Summary: This file contains the raw error scores and effects of four experimental drug conditions on driving tasks. These data were recorded during subjects' driving trials which consisted of a first trial of six course laps of about six minutes each and a second trial of three laps which began about three hours after drug intake. The subjects' driving was scored on hits of cones and poles, rough handling and speed. Supplementary physiological and psychological measures were also obtained during each of the four sessions. These measures included pulse rate, visual imagery, Clyde Mood Scale ratings and Royal Highness Inventory scores.

G00-00115 Comparison of Δ^9 THC and Marijuana Effects in Humans

Principal Investigators:	Miller, Ralph D. Hansteen, Ralph W. Adamac, C. Lehmann, H.E.
Organization:	Commission of Inquiry into the Non-Medical Use of Drugs
Geographic Universe:	Montreal
Population Characteristics:	Male university students, without detectable pathology, experienced but not heavy users of alcohol and cannabis
Case Unit:	Individuals
Sample Size:	14
Time Span:	1972
Restrictions:	None

Summary: Prior to this project no direct quantitative comparison of the effects of relatively pure isolated or synthetic THC and crude cannabis preparations of other cannabinoids had been conducted in humans. This project was designed to compare the effects of high purity synthetic Δ^9 THC with natural marijuana as a further step in determining the active constituents of marijuana in humans. For each of eight drug conditions subjects were submitted to a test battery constructed to assess most of the major acute cannabis effects. Acute dose- and time-response functions were obtained on a number of the subjective, behavioural and physiological measures included in the test battery.

Index Terms: Drug use Cannabis

G00-00116 Effects of Marijuana and Alcohol on Psychomotor Tracking Performance

Principal Investigators:	Reid, L.D. Miller, R.D. Hansteen, R.W.
Organization:	Commission of Inquiry into the Non-Medical Use of Drugs
Geographic Universe:	Toronto
Population Characteristics:	Male university students, without detectable pathology, experienced but not heavy users of alcohol and cannabis
Case Unit:	Individuals
Sample Size:	22
Time Span:	1972
Restrictions:	None

Summary: This study represents an attempt to obtain basic information about effects of cannabis and alcohol, alone or in combination, on tracking performance. Data were collected on the tracking performance of the subjects for each of six experimental drug conditions. Each week subjects were required to undergo two tracking trials after drug consumption. The first

Descriptive Entries

continued

trial consisted of six tracking runs which included both compensatory (simple tracking) and complex tracking tasks. The second trial, which consisted of two simple tracking runs and one complex run, started four hours after drug administration. For simple tracking the subjects' dynamic responses were described by simple, linear differential equations, called "describing functions". Physiological and psychological measures, as well as tracking accuracy were obtained and included foot choice reaction time, reaction to polarity change, Clyde Mood Scale Ratings, Royal Highness Inventory scores, visual imagery, depth perception, visual acuity, time estimation, pulse rate, conjunctival injection, blood pressure, palmar tonic skin conductance and blood alcohol level.

G00-00120 Itinerant Movements

Organization:	Transport Canada
Geographic Universe:	Canada
Population Characteristics:	Airports
Case Unit:	Aircraft
Time Span:	1971 — ongoing
Restrictions:	Restricted for three years from date of production

Summary: This series of files contains data on all take-offs and landings of aircraft at airports in Canada. Data on aircraft movements and details on the type of aircraft are recorded at the airports on Daily Air Traffic Records.

Index Terms: Air traffic Aircraft Airports

G00-00121 Profit Margins of Firms, 1970-1976

Principal Investigator:	Huff, H. Bruce
Organization:	Commission of Inquiry into the Marketing of Beef
Geographic Universe:	Canada
Population Characteristics:	Firms engaged in the processing and marketing of beef
Case Unit:	Firm
Sample Size:	40
Time Span:	1970-1976
Restrictions:	Only fully aggregated data are available

Summary: This file contains financial data from approximately 40 different companies engaged in the processing and marketing of beef. The data were collected for six fiscal periods on the following variables: sales, cost of sales, gross profit, wages and benefits, and net profit before taxes.

Index Terms: Beef marketing Enterprise Profit

G00-00122 Indian Education Nominal Roll System

Organization:	Indian and Northern Affairs/Indian and Inuit Affairs Program
Geographic Universe:	Canada
Population Characteristics:	Registered Indian students
Case Unit:	Individuals
Sample Size:	Variable
Time Span:	1970 — ongoing
Restrictions:	Permission of originator

Summary: This series of files contains data which record changes in the education statistics of registered Indian students in Canada. Variables included in the files are sex, birthdate, religion, grade, language, residence and financial information.

Index Terms: Indigenous population Education Educational expenditures

G00-00134/135 Education and Jobs

Principal Investigators:	Boyd, Archibald D. Gross, Andrew C.
Organization:	Science Council of Canada

continued

Geographic Universe:	Canada
Population Characteristics:	University graduates in physical sciences who graduated in 1954, 1959 and 1964
Case Unit:	Individuals
Sample Size:	619
Time Span:	1970
Restrictions:	None

Summary: These files contain data collected for a study which assessed the educational-employment adjustment processes of Canadian graduates in the physical sciences during the late 1950's and 1960's. Machine readable data file G00-00134 contains the quantitative data and G00-00135 contains the qualitative data. Four main areas were studied: respondent's educational background and his/her ideas about education; the utilization of the respondent's education on the job; professional and work activities; and previous work history.

Index Terms: Physical sciences Occupational background Occupation aspirations Occupational mobility Occupational qualifications Education

G00-00204 Inventory of North American Salix

Principal Investigator:	Argus, G.W.
Organization:	National Museum of Natural Sciences/Botany Division
Geographic Universe:	Canada
Population Characteristics:	Genus Salix
Case Unit:	Specimen
Time Span:	1966-1977
Restrictions:	Permission of originator

Summary: This file contains taxonomic data for the genus Salix. Specimen data comprise observations from the whole of Canada plus codebooks for species, subspecies and variety. Data include location and date of observation, collector's name and herbarium acronym and accession number.

Index Terms: Salix Tree species

G00-00206 Canadian Travel Survey, 1974

Organization:	Industry, Trade and Commerce/Canadian Government Office of Tourism
Geographic Universe:	Canada
Population Characteristics:	Individuals being interviewed for Statistics Canada's Labour Survey
Case Unit:	Individuals
Sample Size:	Undetermined
Time Span:	1974
Restrictions:	None

Summary: The purpose of this survey was to provide information on the travel patterns, characteristics and habits of Canadians. Data relate to accommodation and food services, amusement and recreation services, transportation, travel, recreation and leisure.

Index Terms: Travel Transport Leisure Recreation services Tourism Leisure activities

G00-00207 Nova Scotia Auto Exit Survey, 1971

Organization:	Industry, Trade and Commerce/Canadian Government Office of Tourism
Geographic Universe:	Nova Scotia
Population Characteristics:	Non-residents exiting Nova Scotia by auto
Case Unit:	Individuals and tourist parties
Time Span:	1971
Restrictions:	None

Summary: This data file relates to a survey undertaken to gather information on non-resident tourist parties exiting from Nova Scotia. Interviews were conducted at all main auto exit points in Nova Scotia. Variables include time of interview, length of stay, sex and age of respondent or members in respondent's party, expenditures (per item, per day), regions visited, length of stay in regions, accommodation, facilities used, activities and source of information about Nova Scotia.

Index Terms: Nova Scotia Tourism Travel Holidays Leisure Transport Travel expenditures

G00-00208 United States Auto Exit Survey, 1973-1974

Organization:	Industry, Trade and Commerce/Canadian Government Office of Tourism
Geographic Universe:	Ontario
Population Characteristics:	United States citizens crossing border points to the province of Ontario
Case Unit:	Individuals
Sample Size:	Variable
Time Span:	From 1973 to 1974
Restrictions:	None

Summary: The purpose of this survey was to analyse and summarize travel information concerning visitors to Ontario. Data relate to amusement, recreation services, travel, recreation and leisure.

Index Terms: Travel Leisure Tourism Recreation services

G00-00209 Trends in Drug Use Among Grade Six Rural Students in Alberta, 1974

Principal Investigators:	Bakal, Donald A. Milstein, Stephen Rootman, Irving
Organization:	Health and Welfare Canada/Non-Medical Use of Drugs Directorate
Geographic Universe:	Rural Alberta
Population Characteristics:	Grade Six students
Case Unit:	Individuals
Sample Size:	651
Time Span:	May 1974
Restrictions:	None

Summary: This drug use survey of Grade Six students in rural Alberta was conducted in May 1974 concurrently with a similar survey of junior and senior rural Alberta high schools. The Grade Six survey data are treated as a separate file because a slightly different questionnaire was administered to this grade than Grades Seven to Twelve.

The survey questionnaire administered to the Grade Six students was shorter (67 questions) than the one administered to the higher grades (113 questions). It also included only items pertaining to drug use to avoid the difficulties that these younger students had encountered in understanding and completing the 1971 questionnaire.

Index Terms: Alberta Youth Primary school students Drug use

G00-00228 Inventory of Municipal Waterworks and Waste Water Systems

Alternate Title:	Mundat
Principal Investigator:	Aggarwall, A.
Organization:	Fisheries and Environment Canada/Water Pollution Control Directorate/Pollution Programs Branch
Geographic Universe:	Canada
Population Characteristics:	Municipalities
Case Unit:	Waterworks and waste water treatment facilities
Sample Size:	3,000
Time Span:	1975 — ongoing
Restrictions:	Cost and performance data not to be released without consent of the National Inventory Committee and the provincial representative

Summary: This file contains information concerning the engineering specifications of water treatment plants, effluent discharge, costs of operation and personnel training methods for

3,000 Canadian municipalities. This survey is conducted every two years.

Index Terms: Water treatment

G00-00229 St. Lawrence River Study — Water Quality, 1974-1976

Principal Investigator:	Lee, K., Water Resources Data Systems
Organization:	Fisheries and Environment Canada
Geographic Universe:	St. Lawrence Basin
Case Unit:	Water samples
Sample Size:	800 sampling stations; multiple sampling from each station
Time Span:	From 1974 to 1976
Restrictions:	None

Summary: This file contains three years of data describing the water properties and pollution levels of the St. Lawrence River at 800 sampling stations.

Index Terms: St. Lawrence River Water quality Water pollution

G00-00230 St. Lawrence River Study — Sediment Quality, 1974-1976

Organization:	Fisheries and Environment Canada
Geographic Universe:	St. Lawrence Basin
Case Unit:	Water-sediment samples
Sample Size:	800 sampling stations; multiple sampling from each station
Time Span:	From 1974 to 1976
Restrictions:	None

Summary: This file contains three years of data describing the water properties and pollution levels of the St. Lawrence River at 800 sampling stations.

Index Terms: St. Lawrence River Water pollution Water quality

G00-00231 Drug Related Deaths in Metropolitan Toronto

Principal Investigator:	Leon, Jeffrey S.
Organization:	Health and Welfare Canada/Non-Medical Use of Drugs Directorate
Geographic Universe:	Toronto

continued

Population Characteristics:	All persons recorded by coroners as dying in drug related deaths in 1973
Case Unit:	Individuals
Sample Size:	324
Time Span:	1973
Restrictions:	None

Summary: This file contains data collected from the records of 18 full-time and part-time coroners from in and around the Metropolitan Toronto area in 1973. Only those files from Metropolitan Toronto which mentioned alcohol or drugs in reference to death were selected for this study. The cases were then classified as either directly or indirectly related to alcohol and drugs. The file contains data on sex, month of death, age, marital status, employment status, occupation, race, area of residence, addiction status, circumstances and classification of death, relation of drug use to death, immediate cause of death, general category of drugs involved, specific drug involved, and combination of drugs involved at death.

Index Terms: Toronto Drug use Alcohol Mortality

G00-00236 Canada Manpower Training Program — 3 Month Trainee Follow-Up

Organization:	Manpower and Immigration
Geographic Universe:	Canada, individual locations
Population Characteristics:	Individuals who have completed a course under the Canada Manpower Training Program (CMTP)
Case Unit:	Individuals
Sample Size:	Variable
Time Span:	1969 — ongoing
Restrictions:	Permission of originator

Summary: This file contains data relating to aspects of the adult occupational training program. The purpose of the survey is to obtain trainees' assessments of the training program.

Index Terms: Manpower Training programs Labour

G00-00239 Canada Manpower Industrial Training Program — 3 Month Trainee Follow-Up

Organization:	Manpower and Immigration

Population Characteristics:	Persons who have completed training under the Canada Manpower Industrial Training Program
Case Unit:	Individuals
Sample Size:	Variable
Time Span:	1972 — ongoing
Restrictions:	Permission of originator

Summary: This file contains data relating to aspects of the adult industrial training program. The purpose of the survey is to obtain trainees' assessments of the training program.

Index Terms: Manpower Training programs Labour

G00-00240 Canada Manpower Industrial Training Program — 15 Month Trainee Follow-Up

Organization:	Manpower and Immigration
Geographic Universe:	Canada, individual locations
Population Characteristics:	Respondents to the Canada Manpower Training Program — 3 Month Trainee Follow-Up
Case Unit:	Individuals
Sample Size:	Undetermined
Time Span:	From 1973 to 1974
Restrictions:	Permission of originator

Summary: The purpose of this survey was to obtain information on the trainee's current activities in the labour force and his/her employment characteristics since completing the training program.

Index Terms: Manpower Training programs Labour

G00-00243 Survey of Consumer Attitudes and Behaviour, 1977

Principal Investigator:	University of Michigan/Inter-University Consortium for Political and Social Research
Organization:	Industry, Trade and Commerce/Canadian Government Office of Tourism

Geographic Universe:	United States
Population Characteristics:	Adults, 18 years and older
Case Unit:	Individuals
Sample Size:	1,000
Time Span:	Winter 1977
Restrictions:	None

Summary: This file contains data collected for a survey of consumer attitudes carried out by the University of Michigan. The Canadian Government Office of Tourism prepared questions which were included in the survey dealing with vacation travel intentions, weekend and extended weekend trips, as well as attitudinal questions about the economy.

Index Terms: Travel Tourism Transport Consumer behaviour

G00-00252 Plastics Industry Survey

Organization:	Industry, Trade and Commerce/Chemicals Branch
Geographic Universe:	Canada
Population Characteristics:	Firms engaged in plastics processing
Case Unit:	Firm
Sample Size:	823
Time Span:	1975
Restrictions:	Restricted until August 1996
Summary:	This file contains data collected for a study to obtain a broad range of information about the plastics processing industry. Information on the type and location of the facilities, the resources used and the markets served is included.
Index Terms:	Manufacturing Plastics industry Exports Imports Manpower Labour Commodities Trade

G00-00253* Survey of Second Official Language Use by Graduates in the Public Service of Canada

Organization:	Office of the Commissioner of Official Languages/Special Studies Branch
Geographic Universe:	Canada
Population Characteristics:	Federal public servants who have completed a government sponsored language course between 1968 and 1975
Case Unit:	Individuals
Sample Size:	3,823
Time Span:	May 1976
Restrictions:	Permission of originator
Summary:	This file contains data originating from a questionnaire survey of second official language use by language course graduates in the federal public service. Data relate to language of work, type of language course taken, the level attained, the use of the second official language at work, change in language skill and usefulness of a second language.
Index Terms:	Civil Service Language Language of work Language training

G00-00256 Canal Use Survey

Organization:	Indian and Northern Affairs/Parks Canada
Geographic Universe:	Canada
Population Characteristics:	Federally managed canals
Case Unit:	Canals
Sample Size:	8

Time Span: 1968 — ongoing

Restrictions: None

Summary: These files contain data on the daily traffic flow through federally managed canals in Canada (Rideau, Trent, Carillon, Ste. Anne, St. Ours, Chambly, St. Peters and Canso until 1971) from 1968 to the present. Information available on an annual basis includes vessel type, size, nationality, name, direction of movement, and date and time of entry into a lock station.

Index Terms: Canals Inland waterways Ships Inland water transport

G00-00265 Canadian Inventory of Historic Buildings

Organization:	Indian and Northern Affairs/National Historic Parks and Sites Branch
Geographic Universe:	Canada
Population Characteristics:	Historic buildings
Case Unit:	Buildings
Time Span:	1970 — ongoing
Restrictions:	Permission of originator

Summary: This file, begun in 1970, is a comprehensive architectural inventory of over 150,000 buildings in Canada. The inventory was created to provide data to enable the Historic Sites and Monuments Board of Canada to judge not only the significance of a single building but also to compare it with all others of similar style and value. Variables in the file contain information on every aspect of the building's exterior.

Index Terms: Historic sites Architecture Buildings Building design Monuments

G00-00268 Drug Prices System — Current Prices File

Organization:	Consumer and Corporate Affairs
Geographic Universe:	Canada
Population Characteristics:	Pharmaceutical drugs
Case Unit:	Drugs
Sample Size:	Undetermined
Time Span:	March 1976
Restrictions:	None

Summary: The drug prices system was established for the purpose of maintaining a record of prices related to various drugs marketed throughout the country. Data for the system were compiled through an agreement between Consumer and Corporate Affairs and drug suppliers across the country. Each time a price change was to occur the relevant supplier would forward to the Department a record of the price changes and any other changes. The current prices file maintains a record of current drug prices and the dates these prices were effective for various quantities of a specific drug.

Index Terms: Price Drugs Pharmaceutical industry

G00-00271 Longitudinal Study of Immigrants, 1969-1971

Alternate Title:	Long study
Organization:	Department of Manpower and Immigration/ Research Projects Group
Geographic Universe:	Canada — ports of entry
Population Characteristics:	Heads of households and unattached individuals destined for the labour force who obtained landed immigrant status in Canada during the years 1969, 1970, 1971
Case Unit:	Individuals
Sample Size:	Variable
Time Span:	1969, 1970, 1971
Restrictions:	None

Summary: This file contains data originating from a questionnaire survey of immigrants. This is a longitudinal study and is composed of four questionnaires administered to the sample after six months, one year, two years and three years. Data relate to the work history both in previous country and since arriving in Canada, occupational status, family, accommodation, language use, income and expenditure. Data related to social adaptation are also included.

Index Terms: Immigrants Labour Income Social adaptation

The procedure followed for the 1974 survey was similar to that of the original survey of 1971. The same schools which had been randomly selected from a provincial school directory in 1971 provided the respondents for the 1974 survey with the exception of those schools which were defunct or refused to participate again.

The questionnaire used in both surveys was adapted from one used by the Ontario Addiction Research Foundation (Smart et al., 1973). The adaptation consisted of questions by the respondent, respondent's perception of parental drug use, knowledge of drugs and drug sources, and other demographic/socio-economic questions. Frequency of drug use in the six months prior to the survey was measured by the number of cigarettes per week for tobacco and by the number of times used for other drugs including alcohol.

The questionnaire used in the 1974 survey was altered somewhat from the original used in 1971 to include only items pertaining to drug use. This was done to accommodate the grade six students who had experienced some difficulties in understanding and completing the 1971 questionnaire.

One non-existent drug ("Bindro") was included in the 1974 inventory in order to test the reliability of the data. Individuals endorsing this item constituted only .8 per cent of the total sample.

Index Terms: Alberta Youth Secondary school students Drug use Tobacco Alcohol

G00-00272 Trends in Drug Use Among Rural Students in Alberta, 1974

Principal Investigators:	Bakal, Donald A. Milstein, Stephen Rootman, Irving
Organization:	Health and Welfare Canada/Non-Medical Use of Drugs Directorate
Geographic Universe:	Rural Alberta
Population Characteristics:	Junior and senior highschool students
Case Unit:	Individuals
Sample Size:	7,704
Time Span:	May 1974
Restrictions:	None

Summary: This study is the second drug use survey of rural Alberta high schools. It was conducted in May 1974, exactly three years after the original survey, for the same purpose, i.e. to determine the patterns and trends in drug use by rural students and to provide a data base for future evaluation of this population. Prior to these surveys little attention had been given to drug use in a rural setting.

G00-00273 Drug Use Among Vancouver Secondary School Students

Principal Investigators:	Russell, John S. Hollander, Marcus J.
Organization:	Health and Welfare Canada/Non-Medical Use of Drugs Directorate
Geographic Universe:	Vancouver
Population Characteristics:	Secondary school students
Case Unit:	Individuals
Sample Size:	1,732
Time Span:	June 1974
Restrictions:	None

Summary: This survey was a repeat of one conducted in 1970 to determine what changes there had been in the incidence and patterns of drug use by students in Vancouver secondary schools. Data were collected using a questionnaire which contained 127 variables most of which dealt with some aspect of drug use or knowledge of drugs and their effects on users. Approximately 20 variables were related to the socio-economic, demographic or family characteristics of the student. The questionnaire contained references to alcohol and tobacco use as well as the use of cannabis and narcotic derivatives, hallucinogens, barbiturates, amphetamines, tranquilizers and solvents.

Index Terms: Vancouver Secondary school students Drug use Alcohol Cannabis

G00-00275 Trends in Drug Use Among Rural Students in Alberta, 1976

Principal Investigators:	Bakal, Donald A. Campbell, Denise Rootman, Irving
Organization:	Health and Welfare Canada/Non-Medical Use of Drugs Directorate
Geographic Universe:	Rural Alberta
Population Characteristics:	Grade Six students, junior and senior highschool students
Case Unit:	Individuals
Sample Size:	Grade Six students: 262. Junior and senior highschool students: 4,542
Time Span:	May 1976
Restrictions:	None

Summary: This survey was conducted in May 1976 on a smaller scale than the two previous surveys. The 1974 data indicated a decline in illicit drug use, with the exception of marijuana, plus an increase in regular alcohol use by younger students. The purpose of the 1976 survey was to determine if any changes had occurred in these drug use patterns.

This study attempted to isolate some of the problems created by alcohol use and to determine, if possible, the reason(s) for its continued use given these problems.

The same procedure was followed for the 1976 survey as for the previous two surveys. The questionnaire used in the 1976 survey was based on a revision of the questionnaires used in the previous two surveys. The content of the drug-related items, however, remained basically unchanged. Thus the questionnaire contains items dealing with the use of eight categories of illicit drugs as well as items dealing with the frequency of use of cigarettes and alcohol. Additional items pertaining to alcohol use were added. These questions focused on the amount of alcohol consumed in a "session" as well as where and with whom these sessions take place. Other alcohol-related items deal with personal and social problems associated with alcohol use.

Index Terms: Alberta Youth Secondary school students

Time Span:	From 1953 to 1970
Restrictions:	None

Summary: This file contains general time series econometric data describing the labour and employment situation for Canadian industries. The data cover the period from 1953 to 1970 and are seasonally adjusted. Some of the variables include labour force data, numbers of employed for the Canadian population as a whole by sex and by age, and numbers of unemployed for the Canadian population as a whole by sex and by age.

Index Terms: Labour supply Employment Industrial sector

G00-00287 Industry Selling Prices

Organization:	Prices and Incomes Commission
Geographic Universe:	Canada
Population Characteristics:	Canadian industries by type
Case Unit:	Industries
Time Span:	From 1950 to 1971
Restrictions:	None

Summary: This file contains general time series econometric data describing the industry selling prices of a variety of commodities including foods, manufactured goods, clothing, building materials and vehicles. Real domestic products and volume indexes are included. The data are seasonally adjusted and unadjusted.

Index Terms: Industry selling prices Industrial product

G00-00288 Unrevised Industry Selling Prices

Organization:	Prices and Incomes Commission
Geographic Universe:	Canada
Population Characteristics:	Canadian industry production units
Case Unit:	Industries
Time Span:	From 1956 to 1969
Restrictions:	None

Summary: This file contains general time series econometric data describing the industry selling prices for a variety of goods produced by the major industry categories in Canada.

Index Terms: Industry selling prices Industrial sector Industrial product

G00-00289 Prices and Incomes Commission Master

Organization:	Prices and Incomes Commission
Geographic Universe:	Canada
Population Characteristics:	Industries reporting to Statistics Canada and the Prices and Incomes Commission
Case Unit:	Industries
Time Span:	From 1935 to 1971
Restrictions:	None

Summary: This file contains general time series econometric data describing the state of the Canadian economy as a source of data for other research projects conducted by the Commission. Variables include the following: employment, unemployment and labour force statistics; industrial production statistics; investment statistics; industry selling price indexes; wages and salaries; industrial value statistics; demographic social statistics; industrial costs; and industrial earnings.

Index Terms: Industrial statistics Economic conditions Economic resources Wage Labour supply

G00-00293 National Survey of Work Ethic Amongst Canadian Population

Alternate Title:	Work Ethics Survey
Organization:	Manpower and Immigration/ Strategic Planning and Research
Geographic Universe:	Canada
Population Characteristics:	Canadians, 16 to 60 years of age
Case Unit:	Individuals
Sample Size:	5,934
Time Span:	November 1973
Restrictions:	None

Summary: This file contains data collected from a survey explaining the attitudes of Canadians towards work in general. Data relate to the position of work in respondent's hierarchy of values, its role in attaining personal goals, commitment to work, jobs and employers as well as information on the respondent's past jobs and future work intentions.

Index Terms: Work attitude Job satisfaction

G00-00294 National Survey of Job Satisfaction Amongst Canadian Workers

Alternate Title:	Job Satisfaction Survey
Organization:	Manpower and Immigration/ Strategic Planning and Research
Geographic Universe:	Canada

continued

Population Characteristics:	Working population, 15 years of age and over
Case Unit:	Individuals
Sample Size:	3,201
Time Span:	November 1973
Restrictions:	None

Summary: This file contains data collected from a survey of working Canadians. The survey examined job aspects which workers may or may not value highly, or obtain satisfaction from in their current employment. Data relate to promotional opportunities, financial rewards, quality of supervision, degree of challenge and co-worker relations.

Index Terms: Job satisfaction Occupational choice Job description

G00-00354 Post Funding of New Horizons Projects

Organization:	Health and Welfare Canada/Social Service Programs Branch/New Horizons
Geographic Universe:	Canada, individual locations
Population Characteristics:	New Horizons Projects, funded only once
Case Unit:	New Horizons Projects
Sample Size:	Approximately 1,150
Time Span:	1976
Restrictions:	Permission of originator

Summary: The purpose of this survey was to collect information about post funding of New Horizons Projects which did not receive a second grant. Data contained in the file relate to welfare and old age.

Index Terms: Social services Care of the aged Old age benefits Social security Aged

G00-00355 Participation Survey (New Horizons Program)

Organization:	Health and Welfare Canada/Social Service Programs Branch/New Horizons
Geographic Universe:	Canada, individual locations
Population Characteristics:	Persons participating in New Horizons Program
Case Unit:	Individuals
Sample Size:	Approximately 3,000
Time Span:	1976

Restrictions:	Permission of originator
Summary:	The purpose of this survey was to establish the characteristics of participation in the New Horizons Program. Data relate to welfare and old age security.
Index Terms:	Social services Care of the aged Old age benefits Aged Gerontology Social security

G00-00356 Senior Citizen's Activity Pattern

Organization:	Health and Welfare Canada/Social Service Programs Branch/New Horizons
Geographic Universe:	Canada, individual locations
Population Characteristics:	Recipients of old age security
Case Unit:	Individuals
Sample Size:	7,200
Time Span:	1976
Restrictions:	Permission of originator

Summary: This file contains data from a random sample survey of 7,200 old age security recipients to acquire information on activity patterns. The data relate to welfare and old age security.

Index Terms: Aged Old age benefits Gerontology Social security

G00-00357* Travel Pattern Survey, 1975-1976

Principal Investigator:	Pankiw, Zenovia
Organization:	Treasury Board
Geographic Universe:	Canada
Population Characteristics:	Federal government departments, crown corporations and agencies
Case Unit:	Individuals (claimants)
Sample Size:	47,723
Time Span:	From 1975 to 1976
Restrictions:	Restricted until 1988

Summary: This file contains data on the modes, types and cost of transportation, accommodation and meals of federal employees travelling on government business. Current data were required for the complete review of the Treasury Board Travel Directive in order to: determine the need to make improvements; evaluate alternatives when revising the provisions; facilitate meaningful consultation with staff organizations; and provide accurate cost estimates of travel proposals submitted to Ministers of the Treasury Board for consideration.

Index Terms: Travel Civil Service Travel expenditures
